**Subject:** RE: pyraziflumid - metabolism studies

Hi Heather,

Sorry about the delay...aldicarb needed more time than I anticipated yesterday.

Pyraziflumid mostly looks good but I want to review a couple of things before sending my response later today. Thanks,

Will

Hi Heather,

I have an aldicarb briefing this morning but will get back with you this afternoon. Thanks,

Will

**Subject:** RE: pyraziflumid - metabolism studies

Hi Heather,

I have been working with my parent company regarding this request for quantitative raw data to support the reported study results for MRIDs 50876824 (rice metabolism study) and 50876825 (tomato metabolism study). The attached raw data table has been prepared as an example for the rice metabolism study (MRID 50876824). We would like to know if

the attached table presenting the raw data would be acceptable? If so, we will prepare a similar table for the tomato metabolism study (MRID 50876825) and submit the amended reports with the tables.

The document is password protected. I will send the password in a separate email.

Thank you in advance for your time and consideration.

Best regards,  
Greg

Hi Heather,

I expect to have an update for you late next week.

Thank you for your patience.

Best regards,  
Greg

Hi Heather,

Thank you for your email.

I will look into this and let you know if there are any questions. Updates will be provided as soon as possible.

Best regards,  
Greg

**Subject:** pyraziflumid - metabolism studies

Hi Greg:

I heard back from HED regarding the primary crop metabolism studies for pyraziflumid. MRIDs 50876824 (rice metabolism study) and 50876825 (tomato metabolism study) are the two studies that are lacking in quantitative raw data to support the reported study results. Can you please send this to the portal and also email me a courtesy copy?

Thanks,  
Heather
